**AUGUST'S FEATURE RECIPE**

Jodi Huebner's Poundcake & Berry Dessert

(Jodi & Jim Huebner just bought their new home in Lake Country from Tina!)

**Ingredients:**

2 pound cakes: slice up the pound cake in 1/2 slices (doing them frozen is easier than thawed), and it keeps your dish nice and cold

Big container (or two) of heavy whipping cream

Strawberry's, raspberries, blueberries and blackberries: rinse and slice the fruit

**Directions:**

1. "Whip" the heavy whipping cream in an ice cold dish and add powdered sugar, make to your liking for taste. Can add a dry jello pack flavor if you want.
2. Put one layer of sliced pound cake on the bottom of a glass pan.
3. Spread some whipping cream on the pound cake.
4. Add fruit on top of the whipping cream.
5. Continue to layer until out of ingredients.
6. Keep cold until ready to serve (or else the whipping cream starts to melt!) Not recommended to make the night before, becomes too moist! So make just before serving.

Enjoy!
